25X1A5a1

Dear Sirs:

25X1A5a1

I recently had an opportunity to peruse a copy of the National Intelligence Survey, Section 24, Topography, for a country that was available to my unit. I was quite amazed to find, in this manuscript, so much information that would be useful to an agricultural economist.

25X1A5a1

25X1A5a1

As a Ph.D. candidate in agricultural economics I am working on a research project which involves Central Brazil and particularly the Minas Triangle, or the western part of the state of Minas Gerais. The information which I have regarding topography, soil types and general conditions of the area is limited.

25X1A5a1

My query is therefore in regard to the availability of information, through the Central Intelligence Agency, on Central Brazil and particularly the Minas Triangle. I am specifically interested in topographic maps, soil maps and information describing the general cultural, agricultural and economic conditions in the area.

25X1A5a1

I have a top secret clearance, if that is necessary to gain access to the material. I could visit your office in Washington if the material available would warrant the trip and was not obtainable closer

Awaiting your reply, I am,

Sincerely,

25X1A5a1
